ARTICLE #8:

To see if the Town of Dracut will vote to approve a sum of money for borrowing authorized by the Greater Lowell Regional Vocational-Technical School District, for the purpose of paying costs of adding to, renovating, reconstructing and making extraordinary repairs to the District High School located at 250 Pawtucket Boulevard in Tyngsborough, and for the payment of all other costs incidental and related thereto (the "Project"), which proposed repair project would materially extend the useful life of the school and preserve an asset that otherwise is capable of supporting the required educational program, and for which the District may be eligible for a school construction grant from the Massachusetts School Building Authority ("MSBA"). Said amount to be expended at the direction of the School Building Committee. The MSBA's grant program is a non-entitlement, discretionary program based on need, as determined by the MSBA, and any Project costs the District incurs in excess of any grant approved by and received from the MSBA shall be the sole responsibility of the District and its member municipalities. Any grant that the District may receive from the MSBA for the Project shall not exceed the lesser (1) of the set percent of eligible, approved Project costs, as determined by the MSBA, or (2) the total maximum grant amount determined by the MSBA; or act in any other way relative thereto.
